Grabbit™ Temp Mitt

Protect your hands from hot/cold labware

These silicone rubber mitts fit most hands. The full-hand version has an internal rib in the pocket for added dexterity. Both mitts have studded, oversized surfaces for positive grip. Mitts withstand temperatures from -70 to 500°F (-57 to 260°C).

Cat No.	Description	Overall Length	Units
HS1034A	Full-Hand Mitt	67/8" (17.5cm)	Each
HS1034B	Mini-Finger Mitt	57/8" (15cm)	Each

High-Temperature Gloves

Handle hot objects fresh from the autoclave or oven

These soft, pliant gloves provide excellent heat protection. These terry cloth gloves are heat resistant to 450°F (232°C). Maintain flexibility and comfort in most applications. Select between the two gauntlet lengths based on your wrist/forearm length. Machine washable.
