

## Pipettor Tri-Clamp-Ette™

Conveniently holds 3 pipettors!

An extension to our Clamp-Ette™ family of pipetting aids. This innovative product securely clamps to table tops or benches and holds most major brands of pipettors. The Tri-Clamp-Ette™ provides the flexibility of housing expensive pipettors practically anywhere in the lab! A screw on each end of the product provides a safe hold with just a few easy turns. Available in blue, red, or purple.

Cat No.	Description	Units
<b>HS20162A</b>	Blue Tri-Clamp-Ette	Each
<b>HS20162B</b>	Red Tri-Clamp-Ette	Each
<b>HS20162C</b>	Purple Tri-Clamp-Ette	Each

## Multi-Channel Pipettor Acrylic Stand

Safe and convenient pipettor storage

Keep pipettor on hand while safely keeping it off the benchtop. Designed to securely hold most major brands of multi-channel pipettors. The one position stand has a slot 1.1"W x 1.5"D. Stand measures 3.75 x 5.5 x 8.5".

Cat No.	Description	Units
<b>HS20322</b>	Multi Channel Pipette Rack	Each

## Pipet Filler Stand

Extra sturdy acrylic stand

This benchtop holder is designed to keep your mechanical pipet filler within easy reach. The large 1" diameter hole accepts most standard mechanical pipet fillers. Measures 5.5 x 6 x 8.25".

Cat No.	Description	Units
<b>HS20377</b>	Pipet Filler Stand	Each

## Manual Pipet Racks

Available in acrylic or ABS plastic

Both versions hold 0.1 to 25mL pipets or cans. Racks feature four angled compartments. The ABS plastic version comes with optional attachments to hold pipet bulbs and pipet fillers on both sides of the rack. Cut-out "windows" on the ABS version makes the viewing of enclosed pipets easy. Measures 3.5 x 11.5 x 16".

Cat No.	Description	Units
<b>HS20611</b>	Clear Acrylic Manual Pipet Rack	Each
<b>HS20612</b>	Blue ABS Manual Pipet Rack	Each
<b>HS20613</b>	Red ABS Manual Pipet Rack	Each
<b>HS20614</b>	Green ABS Manual Pipet Rack	Each

## Magnetized Manual Pipet Rack

Holds tightly to metallic surfaces

This magnetized version of our popular pipet storage rack features circular magnets molded onto all four corners of each side. This rack can be mounted onto fume hoods, file cabinets, refrigerators, etc. Constructed of durable ABS plastic, this rack not only looks better, but will also hold up better than acrylic. Includes two handy attachments for holding pipet bulbs, pipet fillers and pipet pumps. Measures 290 x 85 x 410mm.

Cat No.	Description	Units
<b>HS20612M</b>	Magnetized Blue ABS Manual Pipet Rack	Each

## Fluorescent Acrylic Pipettor Stands

Bright, fun colors

Our 6-place fluorescent acrylic pipettor stations are designed to hold most major brands of pipettors. The upper slots are 25mm wide and the lower slots are 20mm wide.

Cat No.	Description	Units
<b>HS20613A</b>	6-Place Orange Acrylic Pipettor Stand	Each
<b>HS20613B</b>	6-Place Red Acrylic Pipettor Stand	Each
<b>HS20613C</b>	6-Place Blue Acrylic Pipettor Stand	Each
<b>HS20613D</b>	6-Place Yellow/Green Acrylic Pipettor Stand	Each

## ABS Pipettor Stands

Durable, molded construction

Our 6-place ABS pipettor stations are an economical alternative to our acrylic versions. The sturdy ABS plastic is a molded one-piece construction. Designed to hold most major brands of pipettors. The upper slots are 25mm wide and the lower slots are 20mm wide.

Cat No.	Description	Units
<b>HS20613E</b>	6-Place Blue ABS Pipettor Stand	Each
<b>HS20613F</b>	6-Place Green ABS Pipettor Stand	Each
<b>HS20613G</b>	6-Place Red ABS Pipettor Stand	Each

## Rotary Pipette Stand

Holds up to 94 pipettes

This circular shaped rack rotates on a central axis to allow for convenient pipette selection. It ships unassembled, but comes together in seconds. The lower disc has openings to protect the tips of the pipettes and allow for water to run off. Constructed of PVC and polypropylene. Assembled rack measures 230mm OD x 480mm H.

Cat No.	Description	Units
<b>HS20616</b>	Rotary Pipette Stand	Each

## Pipet Rack

Holds volumetric and graduated pipets

Organize the pipets you use frequently. Holds up to twelve pipets, six on each side. Polypropylene rack is easy to assemble and quickly disassembles for space saving storage. Autoclavable.

Cat No.	Description	Units
<b>HS20617</b>	Pipet Rack	Each

## Quick-Release Pipette Fillers

Three sizes available

Our pipetting aids feature a rapid release valve for one-handed operation. Stabilizing fingers in the collar of the product hold pipettes securely. They work with glass or plastic pipettes. You draw or release liquid by rotating the thumb wheel. To empty rapidly you merely apply light pressure on the fast release lever. (Please note the attractive rack pictured with the pipette fillers is also available. It is constructed of clear acrylic and holds up to six of our quick release pipettes. Sold below.)

Cat No.	Description	Units
<b>HS20619A</b>	For pipettes up to 2mL	Each
<b>HS20619B</b>	For pipettes up to 10mL	Each
<b>HS20619C</b>	For pipettes up to 25mL	Each
<b>HS20619D</b>	Quick-Release Pipette Stand	Each

## Pipettor Clamp-Ette™

Holds most major brands of pipettors

This unique product keeps pipettors at your fingertips. Secure to table tops and benches with a few turns of the large plastic screw. Move easily from one location to another, wherever you need it in the lab. Single clamp comes in blue. Pack of three includes one blue, one red, and one purple.

Cat No.	Description	Units
<b>HS2062A</b>	Blue Clamp-Ette	Each
<b>HS2062B</b>	Assorted Clamp-ette (Blue, Red, Purple)	Pack of 3

## Acrylic Pipettor Stands

Efficient and convenient pipettor storage

Our 3, 4, and 6-place acrylic pipettor stations are designed to hold most major brands of pipettors. The upper slots are 25mm wide and the lower slots are 20mm wide.

Cat No.	Description	Units
<b>HS206203</b>	3-Place Clear Acrylic Pipettor Stand	Each
<b>HS206204</b>	4-Place Clear Acrylic Pipettor Stand	Each
<b>HS20620</b>	6-Place Clear Acrylic Pipettor Stand	Each

## Multi-Channel Disposable Solution Basins

Clear, white or sterilized versions available

Constructed of white polystyrene or of clear PVC for easy side viewing. These disposable basins have angled sides and V-shaped bottoms allowing nearly complete sample withdrawal. Basins hold up to 55mL. Non-sterile basins come in one pack of 100. Sterile basins are sold in packs of 50 with each individually packaged.

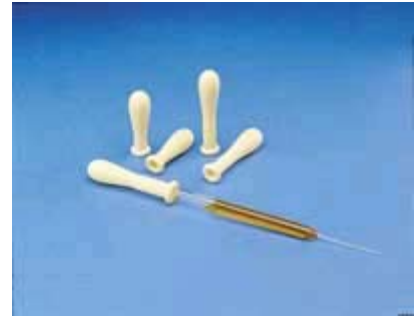

Cat No.	Description	Units
<b>HS20621A</b>	PVC	Pckg. of 100
<b>HS20621B</b>	Polystyrene	Pckg. of 100
<b>HS20621C</b>	Sterile, Polystyrene, White	Pckg. of 50

## Small Latex Droppers

1 and 2mL sizes

These natural latex rubber droppers are designed for use with Pasteur pipets, small pipets, and medicine droppers.

Cat No.	Capacity	Length	Units
<b>HS20622A</b>	1mL	38mm	Pckg. of 72
<b>HS20624</b>	2mL	57mm	Pckg. of 12
<b>HS20622B</b>	2mL	57mm	Pack of 72
<b>HS20625</b>	1mL	38mm	Pckg. of 12

## Safety Bulb Pipet Filler

Fits small and large pipets

Filler features a white plastic attachment with a silicone conical adapter that safely attaches to pipets. Attachment does not require you to twist the bulb to attach a pipet, minimizing the possibility of pipet breakage. Squeeze the bulb and gently press the pipet to form a seal. Draw liquid by suction; lift away bulb to control fluid dispensing with index finger. Comes with a handy elastic band for hanging on reagent bottle or a wrist. Autoclavable. Pack of 3.

Cat No.	Capacity	Units
<b>HS20623</b>	15mL	Pckg. of 3

## Dropper-Bulbs for Pasteur Pipet

1mL and 3mL bulbs

Our blue colored dropper bulbs are designed for Pasteur pipets. Made of natural blue rubber. Pack of 24.

Cat No.	Capacity	Length	Opening Dia.	Units
<b>HS20629A</b>	1mL	24mm	6.7mm	Pack of 24
<b>HS20629B</b>	3mL	41mm	7.0mm	Pack of 24

## 2mL Rubber Bulb

Natural red rubber

Use these bulbs with Pasteur pipets, small pipets, and medicine droppers.  
Pack of 12.

Cat No.	Capacity	Length	Opening Dia.	Units
HS20629C	2mL	33mm	7mm	Pack of 12

## Bulbs for Large Pipets & Syringes

12, 15, 30 and 60 mL sizes

Easy-to-grip, red rubber bulbs have heavy-wall necks for use with pipets and syringes.

Cat No.	Capacity	L x OD	Opening Dia.	Units
<b>HS20630A</b>	12mL	2 x 1 3/8"	5/32"	Each
<b>HS20630B</b>	15mL	2 3/8 x 1 1/2"	5/32"	Each
<b>HS20630C</b>	30mL	2 5/8 x 1 3/4"	1/4"	Each
<b>HS20630D</b>	60mL	3 1/4 x 2 1/8"	1/4"	Each

# Heavy-Duty Bulb

150mL size

Red rubber bulb features reinforcing ribs and a heavy-wall neck for use with large pipets.

Cat No.	Capacity	L X OD	Opening Dia.	Units
<b>HS20630E</b>	150mL	3 7/8 x 2 7/8"	1/4"	Each

## Rubber Pipet Filler

Black, red and blue colors available

This rubber safety pipet filler is designed for efficient one-hand operation. Fits standard size pipets. Control air evacuation, liquid uptake, and liquid dispensing with three valves containing chemically-resistant stainless steel balls. Pinch or release valve for smooth liquid flow. Order the red pipet filler for safe pipetting of caustics. It does not contain carbon black and will not smudge.

Cat No.	Description	Units
<b>HS20632A</b>	Black Pipet Filler	Each
<b>HS20632B</b>	Red Pipet Filler	Each
<b>HS20632C</b>	Blue Pipet Filler	Each

## Disposable Transfer Pipets

6.5, 15 and 15.5cm sizes

These disposable transfer pipets are made of one-piece unbreakable plastic. They are well suited for blood banking, urinalysis, hematology, chemistry, microbiology, and serology. Pack of 500.

Cat No.	Length	Grad.	Draw/Capacity	Drops/mL	Units
<b>HS20635A</b>	15.5cm	0.5mL	2.70/4.10mL	16	Pckg. of 500
<b>HS20635B</b>	15cm	0.25mL	2.70/3.5mL	20	Pack of 500
<b>HS20635C</b>	6.5cm	-	0.5/0.6mL	36	Pckg. of 500

## Pipette Tip Disposal Box

Quick flip of top port cover makes tip ejection easy

Convenient for one-handed disposal of used pipette tips. Eliminates any need to handle pipette tips used with hazardous fluids. The 3/8" (10mm) thick acrylic provides protection from Beta radiation. Flip open port cover to eject pipette tips into the container and close off as needed. The large, hinged lid allows easy removal of contents. Measures 6" x 6" x 6".

Cat No.	Description	Units
<b>HS234634</b>	Pipette Tip Disposal Box	Each

## Rota-Filler™ 3000

Patent pending adjustable pipet nozzle

The Rota-Filler 3000 combines a powerful motor with a lightweight, comfortable design. The innovative adjustable pipet nozzle rotates to three positions for maximum comfort and convenience. Press the nozzle release button on the top of the filler to select the pivot nozzle position. The wide-angle position is ideal for restricted spaces such as a fume hood. The smaller-angle position works well for tight benchtop applications. Easily use in the traditional vertical position as well. The pistol-shaped filler fits comfortably in one hand to allow easy access to fill and dispense liquid. The two concave triggers provide precise control while reducing finger fatigue. Slide the speed switch between two operating speeds—blow out or gravity. Select the low or high range in the “blow out” mode to dispense the remaining liquid in the pipette. Flip to the “gravity” mode for use with “To Contain” pipettes to dispense the liquid without the motor by gravity. Filler accommodates glass and plastic pipettes ranging in volume from 1 to 100 mL. The hydrophobic 0.45µm filter in the nozzle prevents contamination. The polypropylene pipet nozzle is autoclavable. A red, low-battery indicator signals when the rechargeable batteries need to be recharged. The filler can be used during recharging. Or, place it in the included stand or holder. The filler includes two replacement 0.45µm filters, a dual-position charging stand, and a magnetic/wall-mountable holder with screws.

Cat No.	Description	Units
<b>HS3000RFA</b>	Rota-Filler, 125 VAC	Each
<b>HS3000RFB</b>	Rota-Filler, 230 VAC	Each
<b>HS3000RFC</b>	Replacement Filters	Pckg. of 5
